

CASE ON IT, S.L., company dedicated to the preparation and issuance of quality measurement studies and user experience in services related to telecommunications and the supply of telecommunications probes, adapting to the Quality and Productivity needs demanded by an increasingly competitive market, has a Quality Management System, described in the Management Manual and developed in the corresponding Processes, in accordance with the requirements of the International Standard UNE-EN ISO 9001.

The General Management expressly expresses its fundamental commitment to enhance Quality, in CASE ON IT, SL, for all this in compliance with clause 8.4.3 of the 2015 version of the UNE-EN ISO 9001 standard, we inform you of the following information:

CASE ON IT, S.L., in application of its quality management system, has a process to control the products and / or services provided. Your company is part of the list of approved suppliers and we periodically review the list of services to evaluate it.

The evaluation of suppliers is obtained by means of the data obtained in the quality evaluation of the supplier's deliveries for the non-conformities detected.

How could it be otherwise, we trust that our relationship will continue indefinitely and bear fruit for both parties, so we invite you to contact our quality department for any suggestions for improvement.

Luis Molina Borao
CEO
